VIRTUAL CRAFT FAIR STORE SET-UP INSTRUCTIONS

Click on the link below to open and download our Store Set-up Instructions, a brief packet complete with screen shots you can refer to when using our Set-up Wizard to create your marketplace store.

► Vendor Instructions

Shipping graphics

The following graphics are available for use by vendors who wish to use them in their store. In 2020, some sellers found them a useful way to tell buyers they offered both flat rate shipping and free local pick-up. Click on each to open, then right click and save to your computer. The file should go to your computer's "Downloads" folder and be available for you to place in your store.
